Description

The K4 Compact Home combines power & energy efficiency and is equipped with an innovative water-cooled induction motor for enhanced performance and longer life. In addition the Quick Connect hose system eliminates kinking and reduces set up times making it even easier to use.

Compact dimensions allow for convenient transportation and storage. The aluminium telescopic handle and wheels makes this machine easy to use and ensures excellent mobility.

Ideal for cleaning all around the home, the K4 Compact Home includes a vario lance and dirtblaster lance which provides up to 50% greater cleaning power than a standard high pressure lance. The additional Home kit comes with a T250 patio cleaner and detergent.

An impact-resistant recyclable plastic casing and fine mesh water filter prevent dirt particles from damaging the motor and three-piston axial-flow pump, whilst a safety valve prevents pressure overload.

All Kärcher K4 pressure washers can work using a static or harvested water source such as a water butt. Water can either be drawn using a Kärcher suction hose & filter or connected to a water butt tap.

The K4 Compact comes with a 3 year guarantee.

Features & Benefits

Easy to transport

The small, robust devices in the Compact series have two carrying handles and can easily be taken with you, wherever you go. These practical, compact devices can be stored quickly and easily, even in the boot of a car, and take up minimal space.

Outstanding performance

The state-of-the-art water-cooled motor will impress you with its long service life and high level of performance.

Quick Connect

The high-pressure hose is easy to manoeuvre, clicking quickly in and out of the device and gun. This saves time and effort.

Clean tank solution

All Kärcher high-pressure cleaner equipment includes an integrated suction mechanism for cleaning agents.
